PROFILE INFO

Highly skilled and motivated freelance Python web developer with a strong background in building and maintaining dynamic, scalable, and user-friendly web applications. Experienced in utilizing frameworks like Django and Flask to deliver innovative solutions tailored to client needs. Adept at designing APIs, optimizing backend performance, and integrating modern front-end technologies for seamless user experiences. Known for excellent problem-solving abilities, effective communication, and delivering projects on time and to specification. Currently focused on developing AI agents and building systems leveraging generative AI. Passionate about blending AI capabilities with robust software systems and staying updated with the latest advancements in generative AI, machine learning, and scalable AI production.

EXPERIENCE

Python Developer

Freelancing, remote

2022 - PRESENT

- Developed and maintained web applications using Python, Django, and Flask frameworks, focusing on creating scalable, high-performance solutions.
- Designed and implemented backend services, APIs, and database schemas to meet client requirements, ensuring robust functionality and data integrity.
- Collaborated with clients to gather requirements, provide progress updates, and adjust features based on feedback, resulting in high client satisfaction and repeat projects.
- Optimized code for performance, reliability, and maintainability, applying best practices.

SOFT SKILLS

- Effective Communication and Collaboration
- Problem-Solving and Critical Thinking
- Adaptability and Continuous Learning
- Empathy and User-Centric Mindset
- Teamwork and Peer Support
- Emotional Intelligence and Conflict Resolution
- Attention to Detail and Quality Assurance

EDUCATION

Bachelor of Business Informatics

2010 - 2013 | Pan-European University Apeiron

Mechanical Engineering Technician for CAD

2010 - 2013 | MSS Kalesija

CERTIFICATES

- Python developer (ITAcademy)
- [Django Web framework \(Meta\)](#)
- [Foundations of Project Management \(Google\)](#)
- [Introduction to Artificial Intelligence \(IBM\)](#)
- [Generative AI and LLMs: Architecture and Data Preparation \(IBM\)](#)

LANGUAGES

- English - Fluent
- German - Fluent

HARD SKILLS

- Python Programming Proficiency
- Backend development: Django, Flask
- RESTful API Development
- Database Design and Management: MySQL, PostgreSQL, Redis, Firestore
- HTML, CSS, Tailwind CSS, Alpine.js, Bootstrap for Front-End Integration
- Version Control with Git and GitHub
- Work distribution with Celery
- Cloud Services and Deployment (AWS)
- Machine Learning with Scikit Learn
- Prompt engineering
- Agentic framework: Langchain
- AI tools: ChatGPT, Claude 3.5 Sonnet, Preplexity, Cursor, VO
- Project management: Jira, MS Teams, Slack
